

It's SIMPLE

go & click

This simple operation oven is a very convenient device for the users that do not require complex programming features. Easy operation is based on a simple controller that features temperature adjustment option with set 0-72 hours or continuous operation.

click & go

1. set temp
2. set time
3. start work

* - dims of power cable (50 mm) not included

1 - working capacity of chamber can be smaller

2 - spatial measurement

3 - measured in centre of the chamber

4 - "fitted" - number of shelves fitted, included in price, "max" - number of shelves which can be fitted
